

Tensar® GEOGRID

Tensar International is a renowned leader in the manufacture and provision of soil reinforcement and ground stabilization state-of-the-art geogrid for decades. A well-established technical office provides design, engineering, special application, testing and training supports to projects worldwide.

Tensar Diversity

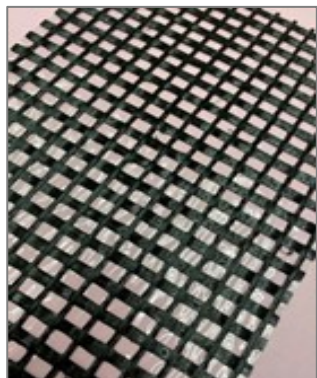

Uni-Axial Geogrid
Reinforced Fill Slope and Wall

Bi-Axial Geogrid
Soil Reinforced

Tri-Axial Geogrid
Ground Stabilization in Weak Subgrade

Polygrid
Glasgrid for Pavement Joint

Composite Geogrid with Geotextile
Reinforcement and Separation

Project References in Hong Kong
Paving Block Stabilization Geogrid (2017)

Mechanical Stabilized Earth Wall (MSEW)(2007)

Embankment Stabilization (2020)

Hong Kong Park Reinforced Fill Slope (2021)

Together with Tensar, we endeavour to provide effective solution (design brain in Kuala Lumpur and UK), economical product (production in India and China) and efficient logistic (delivery from Changsha).
